

Fall Field Trip Information

Thank you for selecting Stuckey Farm for your fall field Trip. While you are on the farm you will:

1. See the apple cider processing plant and sample cider
2. Learn about apples and taste different ones
3. Sit under apple trees and learn about other fall farm products
4. Watch corn being ground into corn meal and receive 1 pound for your class
5. See the observation beehive
6. Ride the wagon through the orchard to the pumpkin patch
7. Receive 1 pumpkin per group
8. Receive 1 apple for each child and adult to take home
9. Optional Mini Maze tour (Approx. 15 min.)

When arriving at the farm:

1. Keep children OUTSIDE THE FRONT DOOR ON EITHER END OF THE PORCH while you wait for one of our leaders to greet your group.
2. The teacher or leader of your group should come in and pay for the field trip and pick up your free apples

The tour takes approx. 45 minutes to 1 hour. Please arrive 5-10 minutes before your scheduled tour time so we can get you checked in.

We have many groups scheduled each day so if your group is late, a portion of your tour may be shortened so as not to conflict with the next scheduled tour.

Please dress for farm life as you will be outside during most of the tour. In case of bad weather, tours are slightly modified, or you may reserve the right to cancel.
